Headquarters 5—Hondo 4.

Hondo bumped into the stiffest game of the season Thursday, when a picked team of ball tossers from San Antonio came out and showed our boys the way home all the way to the wire.

This was by far the best, most exciting and hardest fought game of the season. It being a real ball game until the last man was out.

Windrow heaved the game away for Hondo—his two misques, letting in four of the Soldiers runs, and, believe me, his misjudging of two flies certainly hurt.

Pegues was easily the star of this game. His catching and hitting being great. "Pizgy" had enough "pop" for half a dozen, and his "spilling" of the enemy's first base-man at home on a hair line play was immense. There is no yellow in this player, and we predict that this boy will go up to a real league shortly.

Miller pitched a nice game and deserved to win. He worked the corners like a big leaguer—fanned eight and fielded his position in great style.

Each team made three errors, but Hondo's was the only ones to hurt.

Curran, for Headquarters, pitched a nice heady game. His fielding of his position was a revelation to the local bunch, and he didn't even extend himself except when he got into a bad hole twice. His years of experience certainly came in handy in this game.

We believe that the fans who stayed away from this game missed the best game that will be played on the home lot this year.

Batteries: Soldiers, Curran and Moll; Hondo, Miller and Pegues. Umpires: Drs. Fletcher and Smith.

JOHN M. ALEXANDER, P. C.

Mrs. Mary Robinson.

One of the saddest deaths in the history of Hondo occurred Wednesday night when the soul of Mrs. Mary Robinson returned to its God. She was a stranger having, in company with her husband and children, but recently reached here. The Robinsons were abjectly poor, and were stopping at a camp yard here, the bread-winner of the family working wherever opportunity offered for the means to sustain the lives of those dependent upon him.

Last Saturday night Mrs. Robinson gave birth to a babe, and the want of proper attention undoubtedly contributed to her death. "Poor but proud" is probably responsible for this death that has robbed four small children of the watchful care and guiding hand of a mother. But to this neglect the good people of Hondo are in no wise blameable for when the dire distress of this unfortunate family became known every effort that humanity could suggest was put forward to alleviate the suffering. A house was rented and the sick woman was moved into it, a professional nurse engaged and medical assistance summoned, but all of no avail. The soul of Mrs. Robinson took its flight Tuesday night.

Mr. Robinson is a Mason and his Hondo brethren exerted themselves to their utmost in aiding in every way possible to relieve the distress of their stricken brother, and had he confided in them sooner it is possible his home would not now be broken up.

The body, accompanied by the husband and four orphaned children (the babe born Saturday night expiring a few hours afterward), was shipped to Windwood, Oklahoma, the former home of the Robinsons for interment, the Masons and other generous citizens literally providing the necessary means.

THESE PROMINENT REPRESENTATIVES OF THE STATE DEPARTMENT OF AGRICULTURE WILL SPEAK AT THE COURT HOUSE AT 8:30 O'CLOCK, P. M.

The State Department of Agriculture is sending Judge Ed. R. Kone, Ex-Commissioner of Agriculture, and Mrs. E. M. Barrett, a lady of rare abilities and special qualifications for her work, to our town to speak Wednesday, July 7th, on Better Farming, Better Marketing of the Farmers' Produce, Better Schooling for the Farmers' Children, Better Living for the Farmers' Family, Better Co-operation and Better Relations between the Farmer and the Business Community, and Kindred Topics, all subjects

of vital interest to every one in the community.

Hondo owes it to herself and to these distinguished representatives of the State to turn out in full force and give them a courteous hearing on this occasion. A rare opportunity awaits us to be instructed, entertained and edified by their discourses.

Remember the date, Wednesday, July 7th, at 8:30 p. m., and make it a point to be present.

Normal Students Entertained.

Saturday, June 26, 1915, a few of the Normal students gathered at the home of Mr. and Mrs. E. A. Parsons and enjoyed some fine music and played several interesting games. After a while the games gave way to refreshments, which were daintily served. Every one left, reporting a pleasant time and trusting that if, in the future, the Normal should ever be held at Hondo she would not forget them.

Among those present were: Misses Muennink, Neuman, Bishop, Bandy, Wanshaff, Buchanan, Webb, Parsons, Gaines, Montier and Hancock, Messrs. Ware, Woodward, Whitsett, Boldenhouse, Winn, Byron, Parsons, Hancock and Neuman, Mr. and Mrs. Wm.

14th Cavalry 3—Hondo 7.

Tuesday, Hondo walloped a team made up out of a lot of soldiers who were on their way to Leon Springs for target practice. The soldiers put up a good game after the third inning, when "Bunny" Wyatt essayed to pitch, Hondo not being able to score. The soldiers were a bit stiff from riding, but nevertheless, Hondo had to play ball to win.

Batteries: Wyatt and Boyd; Bradley and Pegues.

THE DRINK OF
YOUR FOREFATHERS

THREE generations of Americans have pronounced Budweiser the king of all bottled beers. Its reputation is international. It sparkles with life—has a brilliant glow—seethes and bubbles with nutriment—is snappy, mild and inviting to the taste—the combined soul of American Barley and Saazer Hops—the cream of the harvest fields. Budweiser sales exceed any other beer by millions of bottles.

EX-SENATOR J. W. BAILEY FAVORS SEPARATION OF A. & M. COLLEGE AND THE UNIVERSITY.

In a letter to the Manager of the Executive Committee for the Promotion of Higher Education in Texas, Senator Bailey says:

"It is doubtless true that the University of Texas and the A. & M. College can be successfully conducted under the same control; but I feel certain that each can be more successfully conducted under a separate control. While I desire to see the A. & M. College separated from the University, I deprecate every act and all discussion which might create an antagonism between the two institutions. I am one of those who earnestly desire to see our splendid system of common schools still further broadened and perfected; I am also one of those who earnestly desire to see the University of our State made all that the sincere friends of higher education could ask; I am also one of those who believe that as the greatest agricultural state in the Union, Texas should have the greatest Agricultural and Mechanical College in the world, and I hope that those now in authority, and those hereafter called to exercise authority in our State, will resolutely set themselves to the accomplishment of that end."

TERRELL FAVORS SEPARATION.

Hon. R. T. Milner, Bryan, Texas.

San Antonio, Texas, June 9, 1915.

—Dear Sir: I am in receipt of your favor of the 2nd, in reference to house joint resolution No. 34, and I would have taken pleasure in replying earlier, but I have been absent from the city for the past two weeks.

I believe that the merits of this resolution should be thoroughly presented to the people of Texas, and I believe that if this is done, that it will be adopted by them overwhelmingly at the coming election.

The resolution contains the following features that I deem of importance.

It provides for the separation of the University of Texas from the Agricultural and Mechanical college; it locates the medical department of the University of Texas, and the College of Industrial Arts; it provides for their organization, development, maintenance and permanent improvement, giving to the legislature the power to provide for their needs by appropriation or otherwise. The resolution removes the restrictions in the present constitution against the appropriation of money for buildings for the University of Texas; that this last provision is important, can not be disputed by anyone, much less those who have journeyed to Austin and have seen the cheap wooden "shacks" now decorating the campus of the university of the largest State in the Union.

The resolution further provides for the division of the university lands, giving the Agricultural and Mechanical college 600,000 acres, the Prairie View State Normal 150,000 acres, and the University of Texas the remainder.

The present constitution provides that the permanent fund of the University of Texas can be invested only in bonds of the State of Texas and the United States. There are no State of Texas bonds for sale, and the bonds of the United States pay a very low rate of interest. The proposed amendment would allow the investment of the permanent fund in the bonds of the United States, the State of Texas, counties in this State, or other securities which, in my judgment, means the securities of any district authorized by law to issue bonds and levy taxes to pay off such bonds. The fact that Texas bonds could not be secured, and that United States bonds, paid so low a rate of interest, has caused the university land to be held intact. Much of these lands, should this resolution be adopted, will be opened to homeseekers, who will be able to purchase it on long time and at a reasonable rate of interest.

I believe that the adoption of this resolution will settle the controversies that have arisen between the University of Texas and the Agricultural and Mechanical college. It will give to both institutions better prospects for maintenance and permanent improvement. It will allow the University of Texas, as well as other institutions, to secure adequate buildings.

I sincerely hope that the resolution will be acted upon favorably by the people, for it will certainly be an improvement over the present constitution. Yours very truly,
CHESTER H. TERRELL.

VOTE FOR THE AMENDMENT.

Sentiment in Texas is fast crystallizing in favor of the adoption of Resolution 34, which proposes the complete separation of the A. & M. College and the State University. The country press is almost a unit in favor of the resolution and a number of the leading dailies have championed its passage. The Houston Post has taken the field favoring the adoption of the resolution and states its position in the following forceful and clear cut editorial:

"There are people who believe that one board for the management and control of the University and the Agricultural and Mechanical College would remove such friction as has existed for years between the two institutions. There are others who believe that the college should be thoroughly co-ordinated with the university and become an integral part of it in every respect. Both of these elements have made strong arguments to fortify their opinions."

But the friends of the college—those who are more directly concerned in its welfare—desire absolute separation, and there is no reason to doubt that the great majority of the people of the State desire such separation. Whether they do or not may be easily determined by the vote on the pending separation amendment soon to be voted on by the people.

The Post believes that those who urge complete separation have the best of the argument and that a favorable decision on the amendment has merely served to retard the development of both institutions. It is a matter of supreme importance to these institutions that these old points of controversy be effectually disposed of, so that each may concentrate its efforts within its own peculiar sphere to discharge its great functions in the education and training of Texas youth.

We must recognize that neither the University nor the College has made much more than a beginning. It is evident to those who take a deep interest in higher education that we must soon take up the question of greatly extending such facilities as the University and College now have. In the matter of physical equipment we scarcely have any University at all. There is immediate need of \$2,000,000 worth of buildings and equipment, and the time is at hand when we shall have to consider the ways and means of supplying the physical needs of the University. We are pledged to make it a University of the first-class and this cannot be done if we neglect the physical needs of the institution.

While the college is in somewhat better condition in a physical sense, it lacks much of meeting present demands. If former legislatures had been as diligent as the present in making provision for our institutions of higher learning, both the College and University might at this time be capable of accommodating 5,000 students each, which would not have been a remarkable number, considering the population of the State. And our policy for the future should be to increase the capacity of both institutions, so as to enable them to meet not only present demands, but to accommodate the oncoming hosts of youth that knocks at the doors of these institutions year by year.

We must ultimately abandon the present plan of providing for these institutions. Their requirements should not be subject to the whims of a legislature or to the conflicting theories of various legislatures. A specific tax to provide for current expenses, for development and expansion and for enlargement of their institutional functions is the businesslike way to maintain our public institutions.

This would emancipate our great schools from the embarrassments they suffer at times by reason of the State's financial difficulties, take them out of politics, place their control and destiny altogether in the hands of able, unselfish men and afford an assurance that there would be at all times an abundance of money to enable them to expand with the growth of the State's population.

If the people will now take interest enough in the matter to adopt the amendment completely separating the University and College and later make provision for their support through the instrumentality of specific tax, we think that within a few years our educational problems will be well on the way to permanent solution.—Houston Post.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich. "I have suffered with pains in my back and under my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

A special election will be held in the Devine Common School District on Tuesday, July 13th, to determine whether or not an additional bond issue of \$2,000 shall be authorized, the proceeds to be used for the construction of an auditorium and laboratory on the public schools grounds in the town of Yancey. There is hardly any question as to the adoption of the proposition as owing to increased renditions of taxable values the issuing of an additional \$2,000 in bonds will not cause any raise in the tax rate.

Father.

(By Ella Wheeler Wilcox)

He had never made a fortune or a
noise,
In the world where men are seeking
after fame;
But he had a healthy brood of girls and
boys,
Who loved the very ground on which
he trod.
They thought him a little short of God;
Oh, you should have heard the way
they said his name—
"Father."
There seemed to be a little tender
prayer
In their voices even when they called
him dad,
Though the man was never heard of
anywhere
As a hero, yet you somehow under-
stood
He was doing well his part and mak-
ing good,
And you knew it by the way the chil-
dren had Of saying: "Father."
He gave them neither eminence nor
wealth,
But he gave them blood untainted with
a vice;
And the opulence of undiluted health.
He was honest and unpurchasable and
kind.
He was clean in heart and body, and
in mind,
So he made them heirs to riches be-
yond price—This Father.

How many boys have you

session of the last Legislature.

Lists of the school land for
sale will be ready for distribu-
tion about July 1st. As the
land will be for sale September
1st, this will allow prospective
purchasers two months in which
to decide which tracts they may
desire to purchase. One who
wants a list may obtain it by
writing to me at Austin.

Land that is situated in the
rough mountainous portions of
the western counties may be
purchased without condition of
living on it. Such land is unfit
for agricultural purposes and is
generally so broken by moun-
tains, rocky hills, canyons and
gorges as to be unfit for human
habitation. The smooth land
there has been sold. It may be
that some would want it for
trading purposes. Sale with or
without settlement is fixed by
counties.

Such land as is supposed to be
susceptible of agriculture will be
for sale to those only who will
become actual settlers on it.
There will be some 60,000 acres
of this class. This is a chance
for the one without a home.
Heretofore those who lived with-
in five miles of the land could
buy it by living on his other
land. Not so now. The pur-
chaser must live on the land he
buys when it is situated in a
county where such tracts of land
must be sold on condition of
settlement. The settlement pur-
chaser pays one-fortieth cash
and three per cent interest; the
purchaser without settlement
pays one-tenth cash and five per
cent interest. Each has forty
years to pay the balance. Thus
is the home builder favored.

The list of lands will give
more information and will be
ready about July first.

Yours truly,

J. T. ROBISON,
Commissioner General Land
Office.

A Farmers Chautauqua.

A Farmers Free Chautauque
is being planned by the Bexar
County Highway League for the
week of July 19-25 near the city
limits of San Antonio. A com-
plete short course in agriculture,
free motion pictures, music,
auction sales and similar at-
tractions will be staged. Ac-
cording to D. E. Colp, secretary
of the Bexar County Highway
League, the Chautauqua will be
the best attraction of its kind
ever held in the county.

The agricultural program will
be in charge of representatives

of the U. S. Department of Agri-
culture, the A. & M. College,
and the State Department of
Agriculture. One of the fea-
tures of the program will be
canning demonstrations, with an
exhibitions of the work of the
boys' and girls's clubs of the
county. From time to time in-
termission will be taken to sell
at auction the canning exhibits,
farm produce or livestock. The
money derived from the auction
sales will go to the original own-
er.

The place for the Chautauqua
is being selected. It will be
near the city limits in a shady
grove, where plenty of water is
close at hand, and near enough
for the visitors to come to town,
and for business men to attend
the evening sessions. It is ex-
pected that hundreds of farmers
will bring their families and
spend the entire week at the
Chautauqua.

The chief of the St Louis de-
tective force puts out this chunk
of wisdom: "I am frequently
asked what is the type of man
who goes wrong. The answer is
that there is no particular type.
There is a clean type of man
who never is in trouble, how-
ever. This is the man who lives
within his means, who saves a
part of his earnings each day
and week and year. It does not
matter much just so he lives
within his income and saves."—

Farmers Meet And Re-Organize Institute.

Minutes of a called meeting of the
local Farmers Institute, Marble Falls,
Burnet County, Texas, held at Johnson
Park, June 18th, at 4 p. m.

President H. E. Richter called the
meeting to order and suggested that a
new set of officers be chosen and that
a re-organization of the Institute be
had, whereupon such suggestion was
duly adopted and the following named
members were duly nominated and
legally elected to the respective of-
fices, as follows: A. J. Fuchs, Presi-
dent; S. P. Kinser, Vice-President;
Thos. Darragh Jr. Entomologist; R.
E. Johnson, Secretary and Treasurer.

The following members were duly
elected as delegates to attend the gen-
eral convention to be held at Austin
on July 27th, 28th and 29th: S. P.
Kinser, C. D. Phinney, L. M. Bible.
Mr. Fletcher Davis of the State Agri-
cultural Department having been
present during the meeting and having
previously delivered a most interesting
and valuable lecture upon subjects of
great interest to farmers, continued to
give the membership much good ad-
vice and instructions as to how to get
most out of co-operation, the following
resolution was unanimously adopted:

Whereas, the membership of the
local Farmers Institute here assem-
bled are greatly indebted to Mr.
Fletcher Davis of the State Depart-
ment of Agriculture for his invaluable
services in the re-organization of this
local Institute, for his splendid lecture
upon subjects of vital importance to
us, and for his advice and sympath-
etic interest in our welfare, all of which
we sincerely appreciate to the fullest.

Therefore, be it resolved; that this
local Farmers Institute extends to
Mr. Fletcher Davis the thanks of this
body and the assurance of our sincere

appreciation of all that he has so kind-
ly done for us and our association upon
this occasion and that the Secretary is
instructed to spread this resolution up-
on the Minutes of the organization
and present a copy to Mr. Davis.

It being found that there was no
further business before the meeting,
upon motion etc., the meeting ad-
journed to meet again at Michel's
opera house at 2 p. m. July 24, 1915.

A. J. FUCHS, Pres.

R. E. JOHNSON, Sec.

—Marble Falls Messenger.

Lecturers to be Here.

To "get results" for the farmer this
Department must have the active co-
operation of and establish the closest
possible relations with the actual farm-
ers and women of the farm homes of
the State.

This can be secured only through
community organizations. To this end
and for the purpose of organizing local
institutes, Ed. R. Kone, Ex-Commis-
sioner of Agriculture, and Mrs. E. M.
Barrett, representing this Department,
will lecture at the following places on
the dates, and the hours stated below:

Uvalde, July 3, 3:00 p. m.
Sabinal, July 5, 8:00 p. m.
D'Hanis, July 6, 8:00 p. m.
Hondo, July 7, 8:00 p. m.

I extend an invitation to the general
public, farmers especially, to hear the
discussion of such topics as organiza-
tion, improvement of farm conditions,
diversification, co-operative marketing,
home improvements and home econom-
ics and the like. Urge especially the
attendance of the ladies.

Will you kindly lend the State of
Texas your aid in securing a good at-
tendance at these meetings?

Very truly yours,

FRED W. DAVIS,
Commissioner.

LET THEM BE DIVORCED.

The Corsicana Sun thus remarks on
a pending amendment to the State
Constitution:

"The divorcement of the A. & M.
College and the State University is a
question that the people of the State
are being called upon to decide. It
is being urged by the friends and sup-
porters of divorcement that this is
"strictly an educational measure,
wholly free from any taint of com-
mercialism and should therefore be
properly presented to the voters." To
this end an executive committee with
R. T. Milner, manager, has been or-
ganized for the purpose of convinc-
ing the people that it is to their inter-
est as it is to the cause of education
to separate these two great educa-
tional institutions. It is a time when
the people should take that view
that will enable them to vote with
thorough knowledge and perfect un-
derstanding of what they think is
best."

We rather think that the two
schools should be granted a divorce.
After that, however, each should be
given its own field of work without
trespass. The A. & M. College should
be that and nothing more, and the U.
of T. should touch agriculture and me-
chanics only theoretically. The State
Department of Agriculture should be
abolished and its duties given to A. &
M. As things now stand, the ma-
chinery is too complicated, being add-
ed cost at the expense of efficiency.
—Waco Times-Herald.

The University of Texas is
the largest institution of learning
in the South. It has graduated
above 4,000 students, while the
roll of its ex-students and gradu-
ates include the names of over

Buy-It-In-Texas

A Slogan for Texans

The most popular slogan with us today is, "Buy-it-in-Texas," and it is not passing strange that this should be the case, for the idea is being fostered by all of those who have the best interests of our dear old state at heart.

Aside from the general clamor of the business interests, this recommendation comes from the Legislative and Executive branches of our Government as well, from men who have ever given the weightiest of problems their undivided attention and study, the result being that they are not only preaching but practicing the doctrine of making purchases in our own state. What this means to us, any ordinary lay-man can readily conceive, millions of untold wealth kept in our state, new manufac-
turing enterprises, and ultimately employment for all classes of skilled and unskilled labor and an era of unprecedented prosperity.

While on the subject, why would it not be advisable to go a step further and say not only "Buy-in Texas," but buy goods and products MANUFACTURED in Texas? As regards the latter, we claim to be among the pioneers, having paved the way in our line, and we feel constrained to say in all modesty that we have attained such a measure of success in the manufacture of beer, especially bottle beer, producing the famous brands, "Pearl" IN BROWN BOTTLES only, "Texas Pride" IN WHITE BOT-
TLES, that we adopted a slogan of our own, viz, "WHO CAN BEAT IT?" We deem this quite pertinent, for the verdict of the public, judging by our very large and continually increasing trade, has been: "NO ONE HAS, BECAUSE NO ONE CAN!"

Considering what we have done in the manufacturing line, our efforts to upbuild our city and State, and realizing that there are a great many people who appreciate a really meritorious article, may we ask in all kindness that you give our famous brands a trial? We will appreciate the consideration.

Very truly yours,

Don't Invite Serious Sickness

"A stitch in time saves nine," is an old and true saying, but it is nevertheless true. Common colds and a constipated condition are the foundation of much serious illness and dread disease that could be avoided if prompt attention were given to the first so-called slight ailment.

Every family can provide prompt treatment for these first attacks of ill health—and every family should be prepared for an emergency by having on hand that standard old family cough syrup, Foley's Honey and Tar Compound, for the relief of coughs, croup, whooping cough, irritated and inflamed throat, tight and sore chest, grippe and bronchial coughs.

Foley Cathartic Tablets are just the thing for constipation and sluggish bowel movement—a wholesome laxative and cleansing cathartic. They do not gripe or cause nausea or inconvenience and are particularly welcome to stout people.

A. & M. COLLEGE AND UNIVERSITY DIVORCEMENT ELECTION JULY 24. BURGES ARGUES FOR 34.

The following unanswerable reasons for the separation of the A. & M. College and the State University are from Hon. Richard F. Burges, member of the Legislature from El Paso County. Mr. Burges is a graduate of the University and is one of the strongest and most influential members of the University alumni: Hon. R. T. Milner,

Manager Executive Committee for the Promotion of Higher Education,
Bryan, Texas.

Dear Mr. Milner:

In my opinion, House Joint Resolution No. 34, commonly known as the Sackett Resolution, should be adopted at the election to be held on the fourth Saturday, which is the 24th day of July, for the reason that the people of Texas, both as evidenced by declarations in Democratic platform, by resolutions of representative bodies of farmers, and by successive votes in the State Legislature, have definitely expressed their desire that the University of the State and the Agricultural and Mechanical College should be separated from each other and each given a distinct and independent status.

The Sackett Resolution presents this issue to the people of Texas in the simplest form. No question of bond issue is involved in it, and no proposal of a permanent tax levy. The division of the permanent endowment fund, as embraced in the resolution, was arrived at by mutual agreement and compromise, and is probably as just as can be reasonably expected.

The special advantage to the Agricultural and Mechanical College will be that the College will be removed from the equivocal and uncertain position in which it now stands in perplexing uncertainty as to whether or not it is only a branch college of the State University, subject to the constitutional inhibition against appropriations for permanent buildings.

The equally important advantages to the University from the adoption of the Sackett Resolution will be the removal from the Constitution of the unwise and unnatural provision forbidding appropriation for permanent buildings. It is difficult to conceive how the University (which has long since outgrown its clothes) can ever be suitably housed until this provision has been voted from the Constitution, as would be done by the adoption of the Sackett Resolution.

I earnestly believe that only two intelligent courses are open to the people of this State concerning the University and the Agricultural and Mechanical College: Either they must be consolidated in government and organization, or they must be completely separated and allowed to work out their separate destinies.

If former expressions of the will of the people are still indicative of the desire of the people of this State, then the two schools must be separated.

That is the sole real issue to be voted on in July. It is not complicated, nor encumbered by any proposals of permanent bond issues, permanent tax levies, or other incidents or side issues.

If the Sackett Resolution is adopted, a clear and definite policy will have been established by the people, and it will only remain for the Legislature and the governing authorities of the University and College to carry out the will of the people.

(Signed)

RICHARD F. BURGES,
Of El Paso.

PROF. DOUGHTY FAVORS SEPARATION.

Prof. W. F. Doughty, State Superintendent of Public Education, is unalterably in favor of the separation of the A. & M. College from the University. In a letter to the Manager of the Committee for the Promotion of Higher Education in Texas, he says: "In my opinion, both schools will make greater progress under separate boards, and, no doubt, separation would end the envious feeling that seems to exist on the part of some zealous friends of both institutions."

Agriculture Field Agent.

Fletcher Davis, field agent for the state department of agriculture, was in Llano one day this week and Saturday of last week. On Monday morning he lectured to the students of the Llano Summer Normal. His lecture was well appointed for the occasion and served as a helper and interesting feature in the work of the school.

A meeting had been announced for Saturday afternoon at which the farmers were called to be present but on account of short notice there was little or no response to the call.

Mr. Davis left Monday for Bertram, after which he will return to Llano and on to Cherokee, where he is scheduled to speak one day this week. —Llano News, June 24th.

At Cherokee.

Fletcher Davis, representing the State Department of Agriculture, spent yesterday in our town and addressed a fair sized audience at the school house last night. He is an interesting talker, and was listened to attentively. At the close of his talk a Farmers Institute was organized with J. W. Randolph as President, J. W. Hickman, Vice-President and P. A. Cook, Secretary. The Institute will hold its first meeting a week from tomorrow which is July 3, at 3 o'clock p. m., to which everybody is invited.

A. & M. COLLEGE AND UNIVERSITY DIVORCEMENT.

Pertinent Reasons Why Resolution 34
Should be Adopted at the Election
on July 24th.

(By Col. R. T. Milner.)

Each Democratic State Convention since 1910, both Republican Conventions in 1914, the Farmers' Congress, the Farmers' Union, the Cattleman's Convention and the Bankers' Convention have adopted resolutions favoring an amendment separating the A. & M. College from the University. In compliance with those demands, the Legislature, at the regular session this year, submitted an amendment to the Constitution, known as House joint resolution No. 34, to be voted on the 24th day of July, next, which provides for complete separation. This is a non-partisan question and should appeal to all the voters of Texas.

The A. & M. College, the State University, the College of Industrial Arts at Denton, and all the other schools in Texas, are the property of the people. The people, through their political conventions and industrial organizations, have for years demanded the separation of the A. & M. College from the University, because they believe it best for both of them. For the first time the Legislature has submitted to the voters an amendment in compliance with these demands. Let the people go to the polls on the 24th of July and forever settle this important question.

All classes of our citizens are in favor of education. The adoption of resolution No. 34 will be the longest step yet taken toward the establishment of a wise program of higher education. It will establish each of our State institutions of learning on a permanent bases, will remove all friction between them and fix their status in the constitution for all time to come. Our political parties, together with our industrial organizations, have acted wisely and patriotically in favor of this amendment.

As long as the A. & M. College is a branch of the University, it will be considered a secondary school, its great work will be handicapped and its growth and expansion will be minimized. The divorcement of these schools will be better for both, better for our great program of education in the greatest State in the Union. A great A. & M. College and a great University should be the slogan in this campaign.

Let the voters of Texas go to the polls on the 24th of July and vote for House joint resolution No. 34, which provides for the complete divorcement of the A. & M. College from the State University. Every candidate for Governor since 1910, including all parties, has unequivocally advocated this amendment.

Joint resolution No. 34 is to be voted on the 24th of July. It has been demanded for years by the different political conventions and by all industrial organizations. No convention of any kind has ever opposed it. It should receive the unanimous vote of the people.

Joint resolution No. 34 is non-partisan and nonpolitical. It is an educational question and has the endorsement of all political parties.

HOUSE JOINT RESOLUTION NO. 34.

Elsewhere the Review is publishing House joint resolution No. 34, which is an amendment to the constitution to be voted on July 24 with five other amendments. The Review feels so much interest in the success of this resolution that it is publishing it in full that its readers may fully understand it. It provides for the divorcement of the A. & M. College from the State University. The resolution will be discussed from time to time in these columns.

The Review believes the people are largely in favor of same. The prosperity if not the life of A. & M. depends upon the success of this resolution. —Athens Review.

When Hot Weather Oppresses.

When you feel oppressed, dull and stupid, are inert and languid—do not blame it all on the weather. Heat will not affect you so much if the bowels are regular. in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tonic" is Harmless To
Clean Your Sluggish Liver
and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.
